-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

**DETAILED ACTION**

***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 41 is rejected under 35 U.S.C. 102(b) as being anticipated by Cochran 3151681.

Cochran discloses (fig. 1-4) a tool for use in a wellbore, comprising a tubular housing (10) having a bore (at 12) therethrough and at least one flow port disposed through a wall thereof; a sleeve (35) slidably mounted within the housing, wherein the sleeve has a bore therethrough, at least one flow port (36) disposed through a wall thereof, the at least one sleeve flow port selectively alignable with the at least one housing flow port, and at least one equalization port (40) disposed through a wall thereof, wherein the sleeve equalization port is substantially smaller than the sleeve flow port; and a seal assembly (31, 30, 47,48) disposed between the housing and the sleeve, the seal assembly comprising an adapter (30) having a length that is substantially greater than a length of the sleeve flow port.

***Allowable Subject Matter***

Claims 1,5-18,24-28,32-40,42-49 are allowed.

***Response to Arguments***

2. Applicant's arguments filed 7/6/07 have been fully considered but they are not persuasive. The applicant argues that the adapter ( 30) disclosed by Cochran is not greater than the sleeve port ( at 36). The applicant is incorrect. Looking at the reproduced Fig. 2. on the next page, the shaded box next to element 30 represents the length of element 30. When this shaded box is shown next to element 36, the shaded box is longer than element 36. Therefore, adapter 30 is longer than sleeve port 36.

***Conclusion***

3. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
